Event Display
status/plans

➡ *Status:*

🔴 **New Geometry is implemented(R.Harr)**

🔴 **At the moment it's possible to play with detector components in a flexible, but complicated way**

🔴 **Side Event Display window(RZ development)**

🔴 **Silicon hits from the new code**

🔴 **XTRP bits**

🔴 **New functionality: enable users to request events by Level–1, Level–2 or Level–3 trigger names(feature of the ConsumerInput module).**

🔴 **Help section of the Event Display is improved – a lot of new information**

🔴 **Some obsolete stuff is removed**

➡ *Status of current progress*

🔴 **BSC display(K.Kotelnikov)**

🔴 **PLUG display(Y.Chung and M.Ghilea)**

🔴 **Geometry – to make it fully adjustable(R.Harr)**

🔴 **Side Display, Silicon related stuff,etc.(A.Loginov)**

➡ **Plans**

🔴 **Event Display manual (Cdf note) – R.Harr, A.Loginov**

🔴 **etc.(List of EvD requests is long)**
